SKILLS

- Strategic Planning
- Problem Solving
- Crisis Management
- Creative Thinking
- AI/ML & Computer Vision
- Negotiation
- Adaptability to Change

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Bengali

PROFILE

I'm Sohom Chatterjee, a B.Tech CSE (Data Science) student at Sister Nivedita University, passionate about backend development, DevOps, and AI/ML. Skilled in Python, Flask, Node.js, and TensorFlow, I've built impactful projects in smart agriculture and computer vision. I seek internships to learn, innovate, and contribute meaningfully to tech-driven solutions.

WORK EXPERIENCE

- Tech Executive**2025 - PRESENT
- GeeksForGeeksSNU Chapter
- Mentored 15+ student teams through the full AI/ML project lifecycle—helping them define problem statements, select appropriate algorithms, and design solution architectures—while providing in-depth code reviews and technical feedback to boost solution robustness and learning outcomes.
 - Guided teams in data preprocessing, model training, hyperparameter tuning, and deployment with Python, scikit-learn, TensorFlow, Flask, and Docker, enabling 10+ successful live demos and real-world application showcases.

EDUCATION

- Btech Computer Science Engineering (Data Science)**2024 - 2028
- School of Engineering | Sister Nivedita University
- Secondary & Higher Secondary**2010 - 2024
- Schooling (10+2) | D.A.V Model School Durgapur
